

LIFE IN THE SCHOOL ZONE

Keep these safety tips in mind when driving in a school zone.

- Allow extra time for driving to avoid speeding. Safe Kids reports that two-thirds of drivers speed in school zones.
- Pay attention to what is around you. Be on the lookout for pedestrians and bike riders.
- Always use child safety seats and seat belts every time you and your children ride. Children under 13 years should ride in the back seat. Each person in the car should have their own seat belt.
- Arrange to pick up children at a safe spot away from the congestion of traffic around the school.
- Drop off children in a safe location so they do not have to cross the street.
- Make sure children enter and leave the car on the curb side.
